

Consider the **POSSIBILITIES**

**ONLY MultiTubes™
GIVE YOU SO
MANY NEW DESIGN
POSSIBILITIES**

Everyone's familiar with round paper tubes, but only MultiTubes™ give you such a wide selection of shapes, sizes and lengths of spiral wound paper tubes in a variety of finishes. If you're looking for an innovative new design component that is lightweight, strong and cost effective, take a look at MultiTubes.

Not only do MultiTubes give you all kinds of design flexibility, in most cases we can overnight small quantities of tubes to you for prototyping. With over 10,000 winding mandrels in stock, we can create the tube shape and size you need. And if appearance is important, we'll give you a choice of 15 standard colors and literally hundreds of special order colors and printed patterns. We can even print on the outside or inside of the tubes. Secondary operations including cutting, deburring, cuffing, drilling and grooving are also available.

- **FOR MORE INFORMATION,** review the specifications on the reverse side of this sheet or give us a call at (219) 484-4111.

BRIGHT GLOSSY

FLAT LUSTERLESS

PARAMOUNT TUBE

PRECISION PRODUCTS GROUP, INC.

SPIRAL WOUND PAPER TUBING - SQUARE, RECTANGULAR, ROUND

HERE IS WHY YOU SHOULD USE *MultiTubes*™

- Excellent weight to strength ratio
- Square and rectangular shapes for new design possibilities
- Cost effective compared to plastic, steel or aluminum
- Fast delivery for most sizes and shapes
- Custom shapes, sizes, lengths and finishes available on request
- Variety of outer-wrap colors
- Majority of content is recycled paper board
- Accommodates most connecting systems

FINISHES

Standard colors include: Black, Yellow, Red, Royal Blue, Green, and White. They are available in two styles: bright glossy or flat lusterless finish. Upon request, the following colors are also available: Aluminum, Gold, and Silver.

A wide variety of custom colors and patterns are available but require minimum order size. Color swatches are available upon request.

CUSTOM SIZES & SHAPES

Beyond our standard stock tubes, we can make more than 10,000 specific size variations in square, rectangular, round and oblique shapes. Send us your unique design and specification requirements and we'll provide a quotation within 48 hours.

Our stock tube length is 4 feet. On a per order basis, we can produce any cut length tube you request between 2 feet and 8 feet in one foot increments. Custom lengths are also available, just ask your inside sales rep for assistance.

WALL THICKNESSES

Standard and made-to-order tubes are produced with the following wall thicknesses. Special wall thicknesses are available upon request.

OUTSIDE TUBE DIAMETERS	WALL THICKNESSES
.500" to 1.250"	.040"
1.251" to 4.000"	.060"
4.001" to 8.000"	.090"
8.001" to 12.000"	.120" (round only)
